

Dear SeaDream Guest,

Welcome to Charlotte Amalie, St. Thomas, USVI and  
SeaDream 1.

We wish your stay to be pleasant and enjoyable. In this regard, may we strongly recommend that you take extra precautions in continually cleansing your hands prior to any food or drink consumption. As this is the flu season such precautions are always wise. Each time you re-embark during the voyage from an excursion, sightseeing, or a meal ashore our staff will be greeting you at the top of the gangway with antibacterial hand cleanser. This cleanser will also be placed around the Yacht for your use and safety. This cleaning solution is recommended by the Center for Disease Control and it is highly effective in protecting you, the guests and our crew.

Thanks for helping us protect you and all guests and crew.

We wish you an enjoyable journey.

Valter Berg  
Master SeaDream 1
