## **The Netherlands American Cemetery December 2023**

The Netherlands American Cemetery and Memorial stands as the sole American military burial ground in the Netherlands. This site is steeped in history, situated close to the renowned Cologne-Boulogne road, originally constructed by Roman engineers. This road was historically significant, having been traversed by Julius Caesar during his military campaigns in the region. It also served as a route for notable historical figures such as Charlemagne, Charles V, Napoleon, and Kaiser Wilhelm II. In May 1940, this ancient route was overtaken by the forces of World War II, marking a significant advance into the Low Countries. By September 1944, the same road witnessed the retreat of German troops who had occupied these nations for four years.

<b>Hotels.com website: </b> I tried to write a review on the website and was unable to. I spend an hour with Hotels.com staff online chat and on the phone. They were unable to locate any link other than website feedback. They were unable to tell me where the review link was. They staff gave me Google as a place to write a review. All I can say is that the Hotels.com reviews are either fake, or they are not able to substantiate where they come from. ## Swiss Travel Pass App

The Swiss Travel Pass App runs on FilemakerGO (free) for your iPhone.

The purpose of the App is to allow you to keep track of your Swiss Travel Pass savings.

What is a Swiss Travel Pass? It is a pass which allows you to travel the Swiss transportation system (rail, bus, and lake boat), including free admission to many museums and some cablecar rides. The Glacier Express and some other scenic rides require seat reservations (additional purchase) but for the most part, is an incredible access for one price.

This app allows you to compare savings in advance, to see if the pass is worth its weight in gold.

I developed this app for my own use, but quickly found it so useful, that I am making it available for free to my website viewers.

This app is the basis of my HyperTravel, where I try to make out the rail and discounts over the validity of the pass. There are some days where I'm saving hundreds of dollars.

## How to HyperTravel

Have you ever wanted to travel to the max in the shortest amount of time ? We're all limited in time, but with huge price increases in the travel industry, making the most of your travel time has become even more important.

The goal of HyperTravel is to see as much as you can, and then you can revisit the places you like the most when you have more time.

In this case, my first HyperTravel was in Switzerland, where I could take advantage of the amazing Swiss Travel Pass, which allows you to take advantage of unlimited transportation (rail, boat, bus) and many lifts (or at a huge discount) and 500 museums. Events not included are generally at a 50 percent discount.

## Top Pick for World's Best: The Burgenstock Resort

This is my all-time favorite resort, located above Lake Lucerne in Switzerland.

After undergoing a multi-hundred-million dollar facelift and renovation, the result is nothing short of spectacular. The staff is the best in the world.

The views, food, atmosphere and wonderful feeling will leave you spellbound. The hiking and views from around the resort are world class and provide stunning vistas of the alps and nature.

Updated after late spring visit at the WaldHotel 2022.

## Switzerland and London May and June 2022

Quick one week in Switzerland to try out the WaldHotel and HyperTravel, then over to the UK to visit London. Spring weather was cool and sometimes rainy in the UK. Exploring Switzerland using HyperTravel and the Swiss Pass was exciting and exhausting at the same time. Tourists are coming back to both locations quickly as prices are also increasing. Staff shortages will be leading to a decrease in service in all sectors. These shoulder seasons are a great time to visit Europe.
