The Traveler's Guide to Wellness: Spices, Body Lotions, and Tea for Health on the Go

Traveling can be an exhilarating experience, offering a chance to explore new places and cultures. However, it often comes with less-discussed drawbacks like stress, elevated blood pressure, poor circulation, and the temptation of unhealthy eating. Fortunately, nature provides a bounty of solutions in the form of spices, body lotions, and teas that can help mitigate these issues. This guide explores how incorporating these natural remedies into your travel routine can enhance your health and improve your travel experience.

The Bemer PEMF Device Review and Experience Coordinated with Red Light Therapy and Proper Diet

Review in progress as of 25 May 2024.

I'm using the Bemer pad with Red Light Therapy (from Amazon) and along with a plant based diet (healing from within). Unless you work at being healthy, the Bemer experience will most likely effect symptoms more than the problem. For example, if your arteries are clogged from a diet of eating saturated fats, it's unlikely that the Bemer will have much effect for the long run. I'll discuss this more as I put the Bemer through its process.

In addition, the skin is your largest organ. Use an emollient to reduce inflammation.

Make your own travel-size skin creams at home. Make them Zinc based for extra skin protection.

The Netherlands American Cemetery December 2023

The Netherlands American Cemetery and Memorial stands as the sole American military burial ground in the Netherlands. This site is steeped in history, situated close to the renowned Cologne-Boulogne road, originally constructed by Roman engineers. This road was historically significant, having been traversed by Julius Caesar during his military campaigns in the region. It also served as a route for notable historical figures such as Charlemagne, Charles V, Napoleon, and Kaiser Wilhelm II. In May 1940, this ancient route was overtaken by the forces of World War II, marking a significant advance into the Low Countries. By September 1944, the same road witnessed the retreat of German troops who had occupied these nations for four years.

Mexico February 2023

Cancun Mexico trip including:

Conrad Tulum resort review: Wonderful stay at this resort which is only one year old. Conrad has a very consistent quality of product and service. Review

Fairmont Mayakoba resort review: Awful stay including product and service shorting. Review.

Banyan Tree restaurant resort review: The Banyan Tree is a world-class resort with an amazing setting. I'd rank in the top three resorts in the world. Review.

Hotels.com website: I tried to write a review on the website and was unable to. I spend an hour with Hotels.com staff online chat and on the phone. They were unable to locate any link other than website feedback. They were unable to tell me where the review link was. They staff gave me Google as a place to write a review. All I can say is that the Hotels.com reviews are either fake, or they are not able to substantiate where they come from. Shame on you Hotels.com Review.
